Scrum.org, Dec 2023

SKILLS

Product Design, Interaction Design, User Research, Prototyping, UI Design, Design Systems, Usability Testing, Accessibility, IA, Wireframing, Service Blueprinting.

SOFTWARE

Figma, Jira, Mural, VS Code, PowerPoint, Illustrator, Photoshop.

EXPERIENCE

Johnson & Johnson Experience Designer III

Raritan, NJ
May 2026 - Present

- Lead product designer on the Chain of Identity & Custody (COI/C) platform, which tracks personalized cell therapies across clinical and commercial supply chains for ~6,000 users; own research, IA, interaction design, prototyping, and usability testing end to end.
- Hand-coded the majority of a rebranded component library (HTML/CSS/JavaScript) over six months with four in-house and two agency developers, customizing Salesforce Lightning (LWC) to J&J branding.

Experience Designer II

June 2024 - May 2026

- Reached the industry UX benchmark for the first time and lifted user-reported usefulness 7% by driving "Project Reset," a multi-release overhaul of core platform workflows spanning user research through validated design.
- Redesigned survey distribution process, driving a 194% increase in survey responses year over year.
- Built a dynamic service-blueprint template adopted company-wide, used 14,000+ times and accelerating creation of 12+ blueprints.
- Oversaw two designers on short-term stretch assignments (6 and 9 months) contributing to wireframing and validation.

Experience Design Co-op

June 2023 - June 2024

- Built a new Figma design system based on the 2023 JNJ.com brand overhaul and migrated the team's framework from UXPin to Figma.
- Established an Inclusive Digital Experience Hub (WCAG 2.1) housing accessibility protocols and design guidelines.
- Trained four colleagues in prototyping and led a Figma workshop supporting the design chapter's 90%-proficiency goal.

RIT University Center

Rochester, NY

Marketing & Web Specialist Co-op

Jan 2022 - Aug 2022

- Grew social following and engagement ~120x on Facebook, Instagram, LinkedIn, and X (formerly Twitter).
- Redesigned and maintained RIT K12 website on the content management system Drupal.
- Hosted and facilitated a biweekly, 10-week community-building workshop series for 200 students.

Radix Labs

Remote

User Interface & Experience Intern

June 2020 - June 2021

- Designed two mid-fidelity prototypes for automation and scheduling SaaS products in Figma, working with a 10-person dev team to improve existing workflows.
- Leveraged market research to identify two opportunities for expanding product tool-chain.
